Chess Club

Chess is a game of infinite possibilities and infinite combinations.

The chess club has started to train the student's minds and challenge their strategic thinking. The club is a great place to discover more things, hone their problem-solving skills and have fun while exercising the brain.

In addition to regular meetings where children can practice and play against each other, the club also participates in local and regional tournaments. The students have participated in CBSE north zone championship held at SS international school, Karnal and secured 5th position in the U-17 boys' group.

As Blaise Pascal says, "chess is the gymnasium of the mind". Truly chess is a great way to exercise one's mind and improve academic performance.

Whether a student is a seasoned veteran or a newcomer to the game, the chess club welcomes all skills level and provides a supportive environment for students to learn, grow and improve.
