Environment and Nature are the miracles on which our life depends and the Eco Club of O.P.JINDAL MODERN SCHOOL HISAR works to create clean and green consciousness amongst the future generations. The main objective of the club is to create awareness of environmental issues, such as protection, conservation and restoration, with an emphasis on educating and empowering students. Number of activities are performed to encourage the students to adopt environment friendly choices. It empowers the students to take up meaningful environmental activities and projects. The club is also a forum through which students can reach out to influence and engage their parents and neighbourhood communities to promote sound environmental behaviour.
